EDITORIAL COMMENT

Well, the "Run-off" did come and it is gone. It is a matter of history. The Battle of Ballots has ended, and now we can do one of two things . . . drop off to sleep as to our needs or become wide awake, and more conscious that we're in a war that will be won or lost.

It seemed during the recent unusual campaign that great principles were at stake and it all depended on who was elected, O'Daniel or Judge Allred. Wonder if that was true? Only the future events can make that answer.

Texas people get very much concerned about "their favorite" in a political campaign, and so often the favoritism is created on fiction or assumption. Let us restate . . . "No one man can ruin or save a nation, but one man can only make a weak link or a strong link in the anchor of the ship of state."

More and more, people in Texas are trying to figure out "What is it that O'Daniel has that other Texas men do not have?"

This is O'Daniel's fourth straight home run. He has more "Political Scapls" to his credit than any other politician who ever was elected in Texas. He is reported to have called an opponent a political coyote, and this recalls a scene we once saw.

Did you ever travel on the road between Rotan and Clairmont which goes through a typical ranch country? Well, we did, and along the way we saw by the highway several miles of fence posts upon which was hanging coyote scapls or carcasses, hung there by trappers who had made a campaign on the coyotes. So, Lee O'Daniel might be termed the giant killer.

Along the political campaign roads O'Daniel has traveled he has hung up the scapls of a lot of wide-roving fellows.

Look, there hangs the scap of Bill McCraw, the big red-skinned, red-haired World War gunner, and famous two-times attorney general of Texas, and there is Ernest O. Thompson, a Colonel in the World War, and prominent Railroad Commissioner.

There's Tom Hunter's scap, the self-made West Texan rancher and oil man; and Congressman Martin Dies' massive scap hangs on the wayside.

Lyndon Johnson, the great young Congressman's hide hangs as a silent reminder of Lee O' the trapper.

Now we see the fiery scap of one Dan Moody, World War vet, smart county and district attorney and famous two-times attorney general, and two-times governor, all wilted up on a post by the wayside.

And while looking we see the sleekest pelt of them all. It is James V. Allred, the little wirey fellow who sold papers, picked cotton, served in the U. S. Navy, was Co. attorney, district attorney, two-times governor and a Federal Judge, the little fighter who roamed over many a range, has at last fallen at the hands of mighty Lee O'.

Besides all these larger pelts the names of the smaller fry are legion. But they got scalped just like the larger animals. And the dreaded Lee O' is ready to start back to Washington lapping his tongue, smirking and grinning his smile of victory.

Had W. Lee O' existed in the days of John H. Reagan, Jim Hogg, Joe Bailey, Charlie Culbertson, Jim and Ma Ferguson, and Pat Neff, they would have been driven from the range and had their scapls hung on the posts along the Texas political highways, just like we see the others.

Now Pa and Ma were considered

vote "gitters" but when it comes to getting votes, Pappy has got 'em skinned a city block.

How does Lee O' do it? Maybe he HAS got something the other fellows don't have, and can't get. W. Lee O' has progressed on something from a flour salesman to two-times Texas governor, and an unexpired term as Senator and now has in the bag a six years senatorial term nomination.

Let's try to figure it out. You recall that a long time before Lee O' ever thought of running for any office he came down to Texas and began selling flour, and he caught the mass purchasers by naming it "Hillbilly Flour". Now Hillbilly flour goes better if a little hillbilly music is mixed with it. Humanity craves entertainment as well as food; and as a second step into the stomachs and hearts of the people of Texas pathetic and sympathetic music became popular. Lee O' is a keen advertiser, and ere long he humored the people by making announcements for them on his programs, boosting various community affairs and then it dawned on him that Sunday programs would be popular and a little religious sentiment might go well. So ere long he became almost a preacher, extending his influence he got a further hook on people's hearts by framing programs of condolence either for individual persons, families or for some tragic community happening, all hitting right at the soft spot of grieving hearts. Well sir, folks began calling him a good man, a Christian gentleman, and a good man like that must have for sale some good flour. So "Hillbilly Flour" became more and more popular.

Then came a surprise and the chance of his life. The elderly people of Texas, by now had a public champion. They listened to his drubbing of politicians who failed to provide promised pensions. So one day, early in the year (let's see, about 1938) W. Lee O' began getting letters suggesting that he run for governor. That evidently pleased Lee O' mightily. But to see what would happen he radioed on his flour programs that if enough of them write him to run for governor he might consider it. He says he got 56,000 letters or cards, or names. He's shootin' arms were loaded for game. He started out for the "professional politicians". They fell by the dozens and all over Texas. All Texans were laid low. He added thousands of the elderly people to his ranks, who believed more than ever that after so long a great and good Christian man had come to scalp the politicians. He promised them very much aid and some of the promises came true. Expressed sympathy for all manner of misfortunes and situations caught more and more ears, including sons, daughters, aunts and uncles, and myriads of grand children. That is the answer. That was the ammunition Lee O' manufactured to pick off the young ex-service men in Texas. Don't know just why a single one of them should be called a "coyote". Any way he scalped all of them.

For years all over Texas W. Lee

New County Agent Secured for Jones Co.

Jones County has been without a County Agent since late in June when the Commissioners Court granted Charles V. Griffin a leave of absence when he was called into the armed services.

Mr. James M. Binion of Brownwood has been named temporary agent and will report for duty on September first. Mr. Binion is a married man with two children, is very active in church and civic affairs. He has been employed as Agriculture instructor in Brownwood schools for several years and is at present serving as president of Texas class room teachers association. Prior to his residence in Brownwood for the past 8 years, he resided in Coleman County.

Scrap Iron Rally To Be Held Saturday

Through the sponsorship of the County Defense Council and the County War Board, the Federal Works Agency is operating in Jones County a W. P. A. Scrap Iron Collection Project. This program is under the supervision of Assistant Superintendent W. B. Clynych.

Mr. Clynych stated that he is anxious to contact every person in Jones County who has any scrap metal or rubber available. If you live inside the towns of Anson, Stamford, or Hamlin, call your Chamber of Commerce and give your name and location, and a truck will call for the scrap. If you live outside these towns, a card addressed to the County Judge, Anson, will get a truck out to your farm.

For all scrap gathered outside the corporate limits of the three towns, the truck operator will weigh your scrap and will issue you a receipt, upon which a Treasury check will be mailed you in payment for the scrap. If you live within the city limits of the towns of Anson, Stamford, and Hamlin, the project can only pick up such scrap as is donated to the Government.

Hamlin People Give \$51 Bale Premium

Last week we told about Roy Dillard getting the first bale of cotton. A committee from the Chamber of Commerce secured a gift of \$51.00 for Roy. Then a presentation was made, but not exactly all money.

A \$50.00 War Bond was presented and a check for the balance, and if you do not know what a \$50.00 bond costs, ask at the Bank or somewhere.

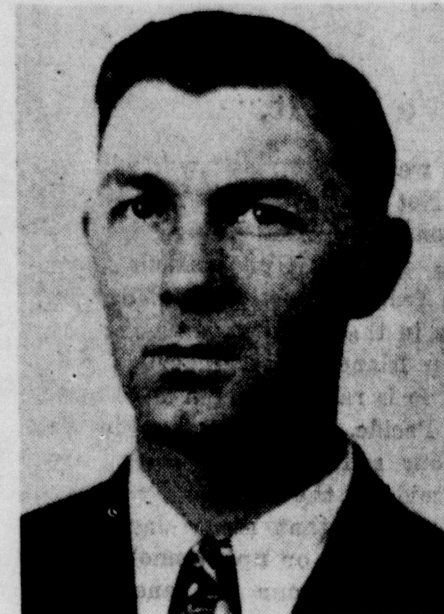

Mr. and Mrs. R. J. Robertson and Miss Mozelle Middleton have returned from a month or more stay in California, at Salinas, near which is an army camp where their son is stationed. Revis is with the 110th Observation Sqdn. They report Revis gaining about 14 pounds since his induction April 4th.

Mrs. G. P. Odom and baby Guy, and her mother, Mrs. Lala Harbert, and Mr. and Mrs. O. L. Jenkins and Mrs. Jim Richardson of Dayton visited Mr. and Mrs. John Jenkins in Hobbs, New Mexico the past week end. They were accompanied by L. B. Pribble who visited his wife in Hobbs.

Ross V. Fomby Dies Of Gun Shot Wound

Close neighbors and all Hamlin people were shocked Wednesday afternoon by the news that Ross Fomby had taken his life with a gun, about 6:45 o'clock, at his beautiful home on the corner of Jackson Ave. and 5th Street.

Not many minutes before the tragedy, Mrs. Fomby and her husband had been talking in the sitting room, and she retired to the bath and later she heard the gun. She found him dead on the floor of the kitchen.

Ross Fomby was one of the best loved and esteemed young men in Hamlin. He had carried the mail on Route 2 for a number of years. He and his wife had worked hard and prospered, and were just getting well settled in their new, two-story home on the Hamlin-Rotan paved highway. As a young man he served with distinction in the First World War, and perhaps received some injury from which he never recovered completely. His health was not good but his spirit was high and the recent stirring events of war bore on his mind very deeply. With a brother on the Battleship Oklahoma at Pearl Harbor, he longed to get into the war in some capacity to do his part again. He asked the postal department if his wife could hold the carrier's job while he served in the army or navy. They promised and Ross went for his physical examination but he could not stand it. He kept carrying the mail, and no doubt but that his suffering was far more than anybody knew. His doctors never gave him much encouragement. He kept working but grew worse. He carried the mail up to the last round. The accumulation of mental strain was too much and to face a prolonged suffering life was not permitted.

Ross Fomby was born in Jones

Moore, of Abilene, and her aunt Mrs. Martha Musick, of San Antonio who will make their home with her. They have an apartment at Miss Lulan Vaughan's home.

Fomby of Fort Worth; Mrs. Frank Waggoner of Hamlin; Mrs. Raymond Rowell of Anson and Mrs. Roy Hartwell of Lordsburg, New Mexico.

O' has listened to the sorrowing heart beats of saddened people. He had a song to accompany his liberal words of sympathy, and along with "Beautiful Texas" and other heart touching music he soothed the invalids, the shut-ins, the apparently neglected old men and women. Once any family or town is thus sympathized with publicly and a few tears have gushed, the person thus touching such hearts, is not forgotten.

Again, W. Lee O' has a way of turning any word or act, spoken or used by an opponent to his advantage. If he gets into a tight place he laughs around it, and says, "Play Leon, Play". This is his ammunition that scalps and decorates the Texas political roads.

Lee O' has a way too, of slinging "something" in a way that those who believe in him admire. It would not do to call any slurring word like "little squirt, yes man, gold dust twins, professional politicians, labor leader racketeers and yellow newspapers," such an ugly word as "mud slinging".

The staunchest friends in the world, any man can have are the elderly people. When they believe in a public official no one can change them. W. Lee O' has won them during a period of years and thus he is able to lay low any opponent who gets into range. The newest political technique is words that entertain and touch tender hearts. W. Lee O' knows the trick and does it.

The Dallas News Says—

Senator O'Daniel returns to Washington because a majority of the people of Democratic Texas want him there. Old-fashioned Democratic custom dictates that both sides call off the dogs. To this procedure the supporters of Judge Allred will assent to the extent that Senator O'Daniel will be given a full opportunity to fulfill the promises he has made on what was the one outstanding campaign issue.

Regardless of what may be Senator O'Daniel's convictions in the matter of supporting the national war effort, it is a fact that, outside Texas, there is a widespread impression that the vote has been an adverse one. The question is being asked: How can Texas, with its outstanding war record, return O'Daniel to the Senate? The only immediate answer is that somebody has been badly fooled.

The only ultimate answer must be given by Senator O'Daniel himself. It remains to be revealed whether he will pick up the challenge that he has flung down to himself in the protestations of loyalty to the war program that he made during the latter part of his campaign. The future record should be, and will be, watched as it is written on the floor of the Senate. If, on each occasion that he arises to speak or vote, he will make the victory salute just as emphatically and dramatically as he has recently made it while mounting the platform to address the people of Texas, he will bring much reassurance to his supporters and receive much forgiveness from his foes.

THIS WEEK

A LITTLE BIT ABOUT

This
AND A LITTLE BIT OF
THAT

THE WAR— As We See It,

This week's report of war will be short. Not that there is not plenty going on for indeed things are beginning to pop. Our Nations have several fronts going on, and one of them is in the vicinity of among the Solomon Islands. Yes, indeed a major battle is raging over a wide area in the Pacific. One thing certain we know our sailors and soldiers are not afraid of the Japs. We have heard already that many Jap ships have gone down or up in smoke. We also know that our airplanes are giving more than they are getting. But none of us will feel exactly easy until it is known who has full mastery of the Pacific Ocean. Suppose the Japs should knock out the major part of our navy? Do you understand what would happen? Ere long an invasion would come to our own states or Canada, or South America. Our Navy is the only thing that keeps the Japs away.

Now what do you think about the European front? It has been proved that our forces can land; our forces can stay and get away when they wish to. On top of all that literally thousands of our men are landing safely in England and don't be surprised to learn of some big move in a few days. That move is cooking up down in Libya, over in Iran and Iraq, and even in India. Our Nations are on their way, and it is victory or death.

In Russia it is mostly death. Not only for Russians but for the hated Huns. Hitler is stretching out so long that he is going to crack in the middle and soon there will be no ends left. Old Hitler, they are going to get you, and we don't mean maybe.

No Fooling Junk Iron Needed

Now this is the last day before the Rally Day, August 29th, when you are expected to bring in or call for somebody else to bring in that old iron about your home. No matter how small, ounces make pounds and pounds make tons, and tons of metal is needed to stop the Japs.

Right now our boys are throwing all they have got at the Japs with telling blows. If you love the Japs keep your iron. If you love victory and freedom, that our boys are fighting for, you will dig up and give or sell all the pieces of iron you can locate. If you have no way to take it down to the dump, a truck will call for it. You can donate the pounds you have or you can sell it at 30 cents per hundred pounds at the Pioneer Gin. Take your choice. If you give it, the Red Cross will sell it and use the money for its work for our soldier boys and other people over the world. Let's do something, and quickly.

Upon graduation he will be given a qualifying examination which, if passed, will make him eligible for advancement to a petty officer rating.

Our soldier and sailor news is scarce this week. This is to remind everyone who has a son, brother or "sweetheart" in the various services, that we are anxious to get news about them, to reprint such letters and parts of letters that may be interesting and appropriate. Occasionally we get a glancing peep at some soldier or sailor going down the street and unless he stops, or someone tells us something he is left out. We do not like that. Remember many of our boys get this paper and it is a treat to read about what the other boys are doing. Another thing—as soon as your soldier changes his address, please let us know it.

**Tommy P. Morgan Died
Early Monday Morning**

Tommy P. Morgan, a young farmer residing on the Chandler farm a short distance southwest of Hamlin, died at the Haskell hospital Monday morning at 12:30 o'clock, after a few days of illness.

He was born in Piedmont, Alabama, February 9, 1907, and was 35 years of age last February.

The family had been on a trip to California and were on their way home when he first took sick. This was at Phoenix, Arizona, according to reports, and after hastening on home they took him to the Haskell hospital Wednesday, before his death. This young family came

William Allen White,
Editor of the Emporia
(Kansas) Gazette, and
celebrated American
journalist and author.

**YOU'RE
RIGHT
tootin'**

Says William Allen White
"The Sage of Emporia"
about America's Railroads

"You ask me whether I think the American railroads are doing their jobs in this grave crisis. Well, I would say, you're right tootin', they are and tootin' is the word!"

"I live six city blocks north of the Santa Fe main lines. All trains between Chicago and Galveston, between Chicago and Los Angeles and San Diego east or west, go right by my door and you should hear them toot. Try to sleep with your south windows open on a summer night and you will certainly hear them toot . . .

"It's a continuous procession of swift passenger trains laden with soldiers and long grumbling, rumbling freight trains often with two engines and all night they sound like some cosmic rooster crowing to spell the dawn of the day of doom for America's enemies.

"No other service in the United States is doing such a swell job as the

American railroads. They were ready for it. When the warning came in '39 after we repealed the embargo clause of the Neutrality Law, the railroads knew what was coming. They are now equipped with cars and with rails. Their roundhouses are full but not clogged. They keep the wheels moving.

"The American capacity for organization under crisis never was exemplified so splendidly as the American railroads have proved their worth and excellence. It is a great job well done. It is a sort of thing that Americans do better than anything else. Our hard common sense, our indomitable purpose to achieve, all these are back of our effort. The railroads have done their work without friction with either labor or capital. They have responded to a great emergency with splendid intelligence.

"And are they doing their job? You're just right tootin' they are!"

Let's All Pull Together

Increasingly, under war conditions, the railroads must furnish mass transportation, military and civilian, for the nation. The load is already great—and growing steadily. Military movements come first, without question. You can do much to help us maintain adequate rail service for civilian needs as well, in these ways: When you travel, make your reservations

and buy your tickets early; cancel reservations promptly, if necessary; check all personal baggage not actually needed in passenger cars; and spread the travel load by avoiding week-end and holiday rush periods. When you make shipments, order freight cars only to your actual current requirements; load them to capacity; and release them promptly.

AT YOUR SERVICE—Why not talk over your transportation problems with your Santa Fe representative? He'll be glad to help you with practical suggestions.

WAR BONDS

Barbed wire used by Uncle Sam's fighting forces is vastly different from that used on American farms. Army and Marine barbed wire is much heavier and the barbs, about three inches in length, are more vicious than ordinary barbed wire.

The Marine Corps pays fifty cents for each twelve yards, or 36 feet of this specially manufactured barbed wire. The Army and Marine Corps needs thousands upon thousands of feet for defensive warfare. Your purchase of War Bonds and Stamps will insure sufficient quantity for their needs. Invest at least ten percent of your wages in War Bonds every pay day.

Santa Fe Cars Carry War Bond Sales Plea

Contributing wholeheartedly to the sales campaign, the Santa Fe has just brought out the first transcontinental railway roving War Bond billboard in the form of the above dining car, now operating on the Grand Canyon Limited, and which later will be used on the California Limited and the Ranger. Painted red, white and blue, the diner with the backing of a Minute Man sign, displays the message, "BUY WAR BONDS," on either side. Stewards in charge of the car are accredited members of the War Savings Staff of the U. S. Treasury Department. As an additional means of spreading the War Bond appeal, the Santa Fe is having the same message lettered on 200 box cars.

O-O-O

Sunday, August 23. The hardest fought election in the history of Texas has come to an end. Majority of voters has spoken in favor of the Junior senator. We accept the verdict with our chins up and tho we are outspoken in our convictions we are proud of the fact that we live in a country where a democratic form of government affords us the opportunity of expressing our views on any issue pertaining to the good of America, and American principles.

We cannot imagine any person who would be so small and narrow-minded as to fall out with his neighbors and friends over his or her religious or political belief and since the Texas political battle is over for the time being we know that the good people of Texas will stand united with our great Commander-in-Chief until Hitler and the Japs are forever wiped from the face of the earth.

We congratulate the winners of Saturday's election, and we also congratulate the losers who fought every inch of the way.

The following election results at McCaulley box:

W. Lee O'Daniel	79
James V. Allred	105
John Lee Smith	160
Harold Beck	16
Jesse James	119
Gregory W. Hatcher	36

Our Sincere Appreciation

Every time we think of priorities we think of you with admiration. We think how you have applied your new knowledge of calories, vitamins and food values to turn into a good thing the new limitations put upon your kitchen. We think that only American women could adapt themselves so quickly, so easily and with such good humor. Then again we admire you for your patience with our new employees who have taken the place of so many of our regular employees who are now in the Armed Services.

Our hats off to those many customers who have cooperated with us and our new employees by shopping early in the week for their staple items, thereby releasing the major part of the time on Friday and Saturday to those employed in Defense Industries or on farms who must shop on the week-end.

as that is their only available time. We are able to give better service early in the week and the prices on staple grocery items that are advertised are kept in effect for an entire week so that everyone may share in this saving.

We realize all of this is because you know that priorities mean... That giving way to them is not granting a privilege to some other individual, but rather your personal cooperation with the all-out-for-victory program, and that anything you, or Safeway, can do to keep a plentiful supply of foods rolling to our Forces and our Allies is really for the ultimate good of all.

We are proud that it is our privilege to plan and work with you... COOPERATING AND WORKING TOGETHER WILL HELP WIN THIS WAR!

EDITORIAL COMMENT

Well, the "Run-off" did come and it is gone. It is a matter of history. The Battle of Ballots has ended, and now we can do one of two things . . . drop off to sleep as to our needs or become wide awake, and more conscious that we're in a war that will be won or lost.

It seemed during the recent unusual campaign that great principles were at stake and it all depended on who was elected, O'Daniel or Judge Allred. Wonder if that was true? Only the future events can make that answer.

Texas people get very much concerned about "their favorite" in a political campaign, and so often the favoritism is created on fiction or assumption. Let us restate . . . "No one man can ruin or save a nation, but one man can only make a weak link or a strong link in the anchor of the ship of state."

More and more, people in Texas are trying to figure out "What is it that O'Daniel has that other Texas men do not have?"

This is O'Daniel's fourth straight home run. He has more "Political Scalps" to his credit than any other politician who ever was elected in Texas. He is reported to have called an opponent a political coyote, and this recalls a scene we once saw.

Did you ever travel on the road between Rotan and Clairmont which goes through a typical ranch country? Well, we did, and along the way we saw by the highway several miles of fence posts upon which was hanging coyote scalps or carcasses, hung there by trappers who had made a campaign on the coyotes. So, Lee O'Daniel might be termed the giant killer.

Along the political campaign roads O'Daniel has traveled he has hung up the scalps of a lot of wide-roving fellows.

Look, there hangs the scalp of Bill McCraw, the big red-skinned, red-haired World War gunner, and famous two-times attorney general of Texas, and there is Ernest O. Thompson, a Colonel in the World War, and prominent Railroad Commissioner.

There's Tom Hunter's scalp, the self-made West Texan rancher and oil man; and Congressman Martin Dies' massive scalp hangs on the wayside.

Lyndon Johnson, the great young Congressman's hide hangs as a silent reminder of Lee O' the trapper.

Now we see the fiery scalp of one Dan Moody, World War vet, smart county and district attorney and famous two-times attorney general, and two-times governor, all wilted up on a post by the wayside.

And while looking we see the sleekest pelt of them all. It is James V. Allred, the little wirey fellow who sold papers, picked cotton, served in the U. S. Navy, was Co. attorney, district attorney, two-times governor and a Federal Judge, the little fighter who roamed over many a range, has at last fallen at the hands of mighty Lee O'.

Besides all these larger pelts the names of the smaller fry are legion. But they got scalped just like the larger animals. And the dreaded Lee O' is ready to start back to Washington lapping his tongue, smirking and grinning his smile of victory.

Had W. Lee O' existed in the days of John H. Reagan, Jim Hogg, Joe Bailey, Charlie Culbertson, Jim and Ma Ferguson, and Pat Neff, they would have been driven from the range and had their scalps hung on the posts along the Texas political highways, just like we see the others.

Now Pa and Ma were considered

vote "gitters" but when it comes to getting votes, Pappy has got 'em skinned a city block.

How does Lee O' do it? Maybe he HAS got something the other fellows don't have, and can't get. W. Lee O' has progressed on something from a flour salesman to two-times Texas governor, and an unexpired term as Senator and now has in the bag a six years senatorial term nomination.

Let's try to figure it out. You recall that a long time before Lee O' ever thought of running for any office he came down to Texas and began selling flour, and he caught the mass purchasers by naming it "Hillbilly Flour". Now Hillbilly flour goes better if a little hillbilly music is mixed with it. Humanity craves entertainment as well as food; and as a second step into the stomachs and hearts of the people of Texas pathetic and sympathetic music became popular. Lee O' is a keen advertiser, and ere long he humored the people by making announcements for them on his programs, boosting various community affairs and then it dawned on him that Sunday programs would be popular and a little religious sentiment might go well. So ere long he became almost a preacher, extending his influence he got a further hook on people's hearts by framing programs of condolence either for individual persons, families or for some tragic community happening, all hitting right at the soft spot of griever hearts. Well sir, folks began calling him a good man, a Christian gentleman, and a good man like that must have for sale some good flour. So "Hillbilly Flour" became more and more popular.

Then came a surprise and the chance of his life. The elderly people of Texas, by now had a public champion. They listened to his drubbing of politicians who failed to provide promised pensions. So one day, early in the year (let's see, about 1938) W. Lee O' began getting letters suggesting that he run for governor. That evidently pleased Lee O' mightily. But to see what would happen he radioed on his flour programs that if enough of them write him to run for governor he might consider it. He says he got 56,000 letters or cards, or names. So his shootin' arms were loaded for game. He started out for the "professional politicians". They fell by the dozens and all over Texas. All Texans were laid low. He added thousands of the elderly people to his ranks, who believed more than ever that after so long a great and good Christian man had come to scalp the politicians. He promised them very much aid and some of the promises came true. Expressed sympathy for all manner of misfortunes and situations caught more and more ears, including sons, daughters, aunts and uncles, and myriads of grand children. That is the answer. That was the ammunition Lee O' manufactured to pick off the young ex-service men in Texas. Don't know just why a single one of them should be called a "coyote". Any way he scalped all of them.

For years all over Texas W. Lee

Scrap Iron Rally To Be Held Saturday

Through the sponsorship of the County Defense Council and the County War Board, the Federal Works Agency is operating in Jones County a W. P. A. Scrap Iron Collection Project. This program is under the supervision of Assistant Superintendent W. B. Clynych.

Mr. Clynych stated that he is anxious to contact every person in Jones County who has any scrap metal or rubber available. If you live inside the towns of Anson, Stamford, or Hamlin, call your Chamber of Commerce and give your name and location, and a truck will call for the scrap. If you live outside these towns, a card addressed to the County Judge, Anson, will get a truck out to your farm.

For all scrap gathered outside the corporate limits of the three towns, the truck operator will weigh your scrap and will issue you a receipt, upon which a Treasury check will be mailed you in payment for the scrap. If you live within the city limits of the towns of Anson, Stamford, and Hamlin, the project can only pick up such scrap as is donated to the Government.

Hamlin People Give \$51 Bale Premium

Last week we told about Roy Dillard getting the first bale of cotton. A committee from the Chamber of Commerce secured a gift of \$51.00 for Roy. Then a presentation was made, but not exactly all money.

A \$50.00 War Bond was presented and a check for the balance, and if you do not know what a \$50.00 bond costs, ask at the Bank or somewhere.

Ross V. Fomby Dies Of Gun Shot Wound

Close neighbors and all Hamlin people were shocked Wednesday afternoon by the news that Ross Fomby had taken his life with a gun, about 6:45 o'clock, at his beautiful home on the corner of Jackson Ave. and 5th Street.

Not many minutes before the tragedy, Mrs. Fomby and her husband had been talking in the sitting room, and she retired to the bath and later she heard the gun. She found him dead on the floor of the kitchen.

Ross Fomby was one of the best loved and esteemed young men in Hamlin. He had carried the mail on Route 2 for a number of years. He and his wife had worked hard and prospered, and were just getting well settled in their new, two-story home on the Hamlin-Rotan paved highway. As a young man he served with distinction in the First World War, and perhaps received some injury from which he never recovered completely. His health was not good but his spirit was high and the recent stirring events of war bore on his mind very deeply. With a brother on the Battleship Oklahoma at Pearl Harbor, he longed to get into the war in some capacity to do his part again. He asked the postal department if his wife could hold the carrier's job while he served in the army or navy. They promised and Ross went for his physical examination but he could not stand it. He kept carrying the mail, and no doubt but that his suffering was far more than anybody knew. His doctors never gave him much encouragement. He kept working but grew worse. He carried the mail up to the last round. The accumulation of mental strain was too much and to face a prolonged suffering life was not permitted.

Ross Fomby was born in Jones County, July 24, 1899. He married Ione Riddle when he returned from over seas. The survivors, including his wife are his parents, Mr. and Mrs. J. W. Fomby of the Wise Chapel community; three brothers, Elbert Fomby of Hamlin; William Fomby a sailor somewhere in the Pacific; C. A. Fomby of Fort Worth; Mrs. Frank Waggoner of Hamlin; Mrs. Raymond Rowell of Anson and Mrs. Roy Hartwell of Lordsburg, New Mexico.

Funeral services were conducted at the First Baptist church, Thursday at 5:00 P. M. by the pastor, Rev. East, assisted by the Associate Pastor, Rev. Torrence.

Barrow Funeral Directors had charge and interment was in Hamlin East Cemetery.

Schools To Resume Work On "Sun" Time

Mrs. W. Harrison, formerly Miss Eddie Beck will return to teach in the Hamlin schools this fall. Her assignment will be in the elementary school.

Miss Myra Samford has resigned her position in the English Department of the High school to accept a position as typist in the Glider School at Lubbock. Several other teachers have been elected, but their acceptance has not been received.

The time schedule for the Public Schools this year will be as follows: Classes will begin at 9:45. Pupils will be dismissed for luncheon at 12:45. Forty-five minutes will be allowed for luncheon and school will be dismissed at 4:30.

(The announcement of return to sun or old Standard time will be welcomed by all parents and pupils. This year there will not be any more going to school before daylight and wasting a half day of good daylight).

Miss Georgie Moore returned this week from Abilene to resume her position as a teacher in the Hamlin schools. Miss Moore was accompanied by her mother, Mrs. R. L. Moore, of Abilene, and her aunt Mrs. Martha Musick, of San Antonio who will make their home with her. They have an apartment at Miss Lulan Vaughan's home.

Mr. and Mrs. Garnet Alexander and small daughter were in Hamlin over the week end visiting friends. Garnet is employed in the State Comptroller's Office, in Austin.

O' has listened to the sorrowing heart beats of saddened people. He had a song to accompany his liberal words of sympathy, and along with "Beautiful Texas" and other heart touching music he soothed the invalids, the shut-ins, the apparently neglected old men and women. Once any family or town is thus sympathized with publicly and a few tears have gushed, the person thus touching such hearts, is not forgotten.

Again, W. Lee O' has a way of turning any word or act, spoken or used by an opponent to his advantage. If he gets into a tight place he laughs around it, and says, "Play Leon, Play". This is his ammunition that scalps and decorates the Texas political roads.

Lee O' has a way too, of slinging "something" in a way that those who believe in him admire. It would not do to call any slurring word like "little squirt, yes man, gold dust twins, professional politicians, labor leader racketeers and yellow newspapers," such an ugly word as "mud slinging".

The staunchest friends in the world, any man can have are the elderly people. When they believe in a public official no one can change them. W. Lee O' has won them during a period of years and thus he is able to lay low any opponent who gets into range. The newest political technique is words that entertain and touch tender hearts. W. Lee O' knows the trick and does it.

The Dallas News Says—

Senator O'Daniel returns to Washington because a majority of the people of Democratic Texas want him there. Old-fashioned Democratic custom dictates that both sides call off the dogs. To this procedure the supporters of Judge Allred will assent to the extent that Senator O'Daniel will be given a full opportunity to fulfill the promises he has made on what was the one outstanding campaign issue.

Regardless of what may be Senator O'Daniel's convictions in the matter of supporting the national war effort, it is a fact that, outside Texas, there is a widespread impression that the vote has been an adverse one. The question is being asked: How can Texas, with its outstanding war record, return O'Daniel to the Senate? The only immediate answer is that somebody has been badly fooled.

The only ultimate answer must be given by Senator O'Daniel himself. It remains to be revealed whether he will pick up the challenge that he has flung down to himself in the protestations of loyalty to the war program that he made during the latter part of his campaign. The future record should be, and will be, watched as it is written on the floor of the Senate. If, on each occasion that he arises to speak a vote, he will make the victory as lute just as emphatically and dramatically as he has recently made it while mounting the platform to address the people of Texas, he will bring much reassurance to his supporters and receive much forgiveness from his foes.

THIS WEEK

A LITTLE BIT ABOUT

This

AND A LITTLE BIT OF

THAT

THE WAR— As We See It,

This week's report of war will be short. Not that there is not plenty going on for indeed things are beginning to pop. Our Nations have several fronts going on, and one of them is in the vicinity of among the Solomon Islands. Yes, indeed a major battle is raging over a wide area in the Pacific. One thing certain we know our sailors and soldiers are not afraid of the Japs. We have heard already that many Jap ships have gone down or up in smoke. We also know that our airplanes are giving more than they are getting. But none of us will feel exactly easy until it is known who has full mastery of the Pacific Ocean. Suppose the Japs should knock out the major part of our navy? Do you understand what would happen? Ere long an invasion would come to our own states or Canada, or South America. Our Navy is the only thing that keeps the Japs away.

Now what do you think about the European front? It has been proved that our forces can land; our forces can stay and get away when they wish to. On top of all that literally thousands of our men are landing safely in England and don't be surprised to learn of some big move in a few days. That move is cooking up down in Libya, over in Iran and Iraq, and even in India. Our Nations are on their way, and it is victory or death.

In Russia it is mostly death. Not only for Russians but for the hated Huns. Hitler is stretching out so long that he is going to crack in the middle and soon there will be no ends left. Old Hitler, they are going to get you, and we don't mean maybe.

Junk Iron Needed

Now this is the last day before the Rally Day, August 29th, when you are expected to bring in or call for somebody else to bring in that old iron about your home. No matter how small, ounces make pounds and pounds make tons, and tons of metal is needed to stop the Japs.

Right now our boys are throwing all they have got at the Japs with telling blows. If you love the Japs keep your iron. If you love victory and freedom, that our boys are fighting for, you will dig up and give or sell all the pieces of iron you can locate. If you have no way to take it down to the dump, a truck will call for it. You can donate the pounds you have or you can sell it at 30 cents per hundred pounds at the Pioneer Gin. Take your choice. If you give it, the Red Cross will sell it and use the money for its work for our soldier boys and other people over the world. Let's do something, and quickly.

About Soldiers--Sailors

Pvt. Cledys B. Griffin of Co. D, 606 Tank Destroyer Bn., Camp Hood, came up Saturday to see his wife, the former Carlee Hall, to whom he was married August 1st. Griffin is a son of Mr. and Mrs. W. E. Thurston W. Havens, Jr., son of Mr. and Mrs. T. W. Havens of Hamlin, is now undergoing intensive training to become a navy specialist, being enrolled in a 16-weeks course in the school for Fire Controlman, at the Service Schools of the U. S. Naval Training Station, Great Lakes, Illinois.

Upon graduation he will be given a qualifying examination which, if passed, will make him eligible for advancement to a petty officer rating.

Our soldier and sailor news is scarce this week. This is to remind everyone who has a son, brother or "sweetheart" in the various services, that we are anxious to get news about them, to reprint such letters and parts of letters that may be interesting and appropriate. Occasionally we get a glancing peep at some soldier or sailor going down the street and unless he stops, or someone tells us something he is left out. We do not like that. Remember many of our boys get this paper and it is a treat to read about what the other boys are doing. Another thing—as soon as your soldier changes his address, please let us know it.

Tommy P. Morgan Died Early Monday Morning

Tommy P. Morgan, a young farmer residing on the Chandler farm a short distance southwest of Hamlin, died at the Haskell hospital Monday morning at 12:30 o'clock, after a few days of illness.

He was born in Piedmont, Alabama, February 9, 1907, and was 35 years of age last February.

The family had been on a trip to California and were on their way home when he first took sick. This was at Phoenix, Arizona, according to reports, and after hastening on home they took him to the Haskell hospital Wednesday, before his death. This young family came

"A GALLON DOES THE AVERAGE ROOM"

Kem-Tone
WASHABLE
WALL FINISH

Here's a new way to make old rooms look new: Kem-Tone them! It's the quick, easy and low-cost way that Kem-Tone—Sherwin-Williams' latest synthetic resin finish—now makes possible.

"Kem-Toning a room" means doing things impossible to do with ordinary paint. Your average-size room needs but one gallon of Kem-Tone... because you "stretch" every gallon by thinning it with water. Yet Kem-Tone covers solidly, beautifully... this modern miracle finish covers even figured wallpaper—one coat! What's more, it dries in 1 hour, has no offensive odor, and is washable!

Let us tell you the whole amazing story of Kem-Tone, show you its smart, pastel colors.

NEWEST—SMARTEST PASTEL COLORS

- 1 COVERS WITH 1 COAT, practically any inside surface including wallpaper!
- 2 NO OBJECTIONABLE ODOR... during or after painting.
- 3 DRIES IN 1 HOUR... room furnishings may be replaced same day.
- 4 NO SIZING OR PRIMING coat required.
- 5 THINNED WITH WATER... no special solvent thinner required.

- 6 READILY WASHABLE... just use plain soap and water.
- 7 BRUSHES CLEAN EASILY in ordinary water after use.
- 8 NEWEST, SMARTEST pastel colors. They're lovely.
- 9 EASY TO APPLY, so easy a very wide brush may be used, thereby cutting down painting time.
- 10 ECONOMICAL... 1 gallon mixed with water makes 1½ gallons of paint.

William Allen White,
Editor of the Emporia
(Kansas) Gazette, and
celebrated American
journalist and author.

**YOU'RE
RIGHT
tootin'**

Says William Allen White
"The Sage of Emporia"
about America's Railroads

"You ask me whether I think the American railroads are doing their jobs in this grave crisis. Well, I would say, you're right tootin', they are and tootin' is the word!"

"I live six city blocks north of the Santa Fe main lines. All trains between Chicago and Galveston, between Chicago and Los Angeles and San Diego east or west, go right by my door and you should hear them toot. Try to sleep with your south windows open on a summer night and you will certainly hear them toot..."

"It's a continuous procession of swift passenger trains laden with soldiers and long grumbling, rumbling freight trains often with two engines and all night they sound like some cosmic rooster crowing to spell the dawn of the day of doom for America's enemies."

"No other service in the United States is doing such a swell job as the

American railroads. They were ready for it. When the warning came in '39 after we repealed the embargo clause of the Neutrality Law, the railroads knew what was coming. They are now equipped with cars and with rails. Their roundhouses are full but not clogged. They keep the wheels moving.

"The American capacity for organization under crisis never was exemplified so splendidly as the American railroads have proved their worth and excellence. It is a great job well done. It is a sort of thing that Americans do better than anything else. Our hard common sense, our indomitable purpose to achieve, all these are back of our effort. The railroads have done their work without friction with either labor or capital. They have responded to a great emergency with splendid intelligence."

"And are they doing their job? You're just right tootin' they are!"

Let's All Pull Together

Increasingly, under war conditions, the railroads must furnish mass transportation, military and civilian, for the nation. The load is already great—and growing steadily. Military movements come first, without question. You can do much to help us maintain adequate rail service for civilian needs as well, in these ways: When you travel, make your reservations

and buy your tickets early; cancel reservations promptly, if necessary; check all personal baggage not actually needed in passenger cars; and spread the travel load by avoiding week-end and holiday rush periods. When you make shipments, order freight cars only to your actual current requirements; load them to capacity; and release them promptly.

AT YOUR SERVICE—Why not talk over your transportation problems with your Santa Fe representative? He'll be glad to help you with practical suggestions.

WAR BONDS

Barbed wire used by Uncle Sam's fighting forces is vastly different from that used on American farms. Army and Marine barbed wire is much heavier and the barbs, about three inches in length, are more vicious than ordinary barbed wire.

The Marine Corps pays fifty cents for each twelve yards, or 36 feet of this specially manufactured barbed wire. The Army and Marine Corps needs thousands upon thousands of feet for defensive warfare. Your purchase of War Bonds and Stamps will insure sufficient quantity for their needs. Invest at least ten percent of your wages in War Bonds every pay day.

Santa Fe Cars Carry War Bond Sales Plea

Contributing wholeheartedly to the sales campaign, the Santa Fe has just brought out the first transcontinental railway roving War Bond billboard in the form of the above dining car, now operating on the Grand Canyon Limited, and which later will be used on the California Limited and the Ranger. Painted red, white and blue, the diner with the backing of a Minute Man sign, displays the message, "BUY WAR BONDS," on either side. Stewards in charge of the car are accredited members of the War Savings Staff of the U. S. Treasury Department. As an additional means of spreading the War Bond appeal, the Santa Fe is having the same message lettered on 200 box cars.

O-O-O

Sunday, August 23. The hardest fought election in the history of Texas has come to an end. Majority of voters has spoken in favor of the Junior senator. We accept the verdict with our chins up and tho we are outspoken in our convictions we are proud of the fact that we live in a country where a democratic form of government affords us the opportunity of expressing our views on any issue pertaining to the good of America, and American principles.

We cannot imagine any person who would be so small and narrow-minded as to fall out with his neighbors and friends over his or her religious or political belief and since the Texas political battle is over for the time being we know that the good people of Texas will stand united with our great Commander-in-Chief until Hitler and the Japs are forever wiped from the face of the earth.

We congratulate the winners of Saturday's election, and we also congratulate the losers who fought every inch of the way.

The following election results at McCauley box:

W. Lee O'Daniel	79
James V. Allred	105
John Lee Smith	160
Harold Beek	16
Jesse James	119
Gregory W. Hatcher	36

Our Sincere Appreciation

Every time we think of priorities we think of you with admiration. We think how you have applied your new knowledge of calories, vitamins and food values to turn into a good thing the new limitations put upon your kitchen. We think that only American women could adapt themselves so quickly, so easily and with such good humor. Then again we admire you for your patience with our new employees who have taken the place of so many of our regular employees who are now in the Armed Services.

Our hats off to those many customers who have cooperated with us and our new employees by shopping early in the week for their staple items, thereby releasing the major part of the time on Friday and Saturday to those employed in Defense Industries or on farms who must shop on the week-end.

as that is their only available time. We are able to give better service early in the week and the prices on staple grocery items that are advertised are kept in effect for an entire week so that everyone may share in this saving.

We realize all of this is because you know that priorities mean... That giving way to them is not granting a privilege to some other individual, but rather your personal cooperation with the all-out-for-victory program, and that anything you, or Safeway, can do to keep a plentiful supply of foods rolling to our Forces and our Allies is really for the ultimate good of all.

We are proud that it is our privilege to plan and work with you... COOPERATING AND WORKING TOGETHER WILL HELP WIN THIS WAR!
